

Innovate. Integrate. Elevate: ePRO Connect, Your Partner in Patient- Centric Excellence.

Your Next Level Awaits

Allocating resources towards independent features and services, many of which fail to align with the unique needs of ophthalmology, results in inefficiency and substantial expenses. Integrating these elements amplifies the already steep costs and time commitments. Our innovative AI-driven strategy seamlessly unifies an array of features into a cohesive platform, leaving a remarkable impact on patients while optimizing administrative and clinical processes.

Client Perspectives

ePRO Connect was transformational at Kugler Vision. We were able to seamlessly combine online scheduling, NPS scores, reviews, referrals, and patient outcomes in one easy app. The app tracks the patient journey from start to finish. Patients LOVE it - ePRO has tremendously impacted our practice!

Cornelia Vremes, MBA, EDD
COO, Kugler Vision

Online Scheduling & Appointment Alerts

Reduce scheduling barriers, call volume, and no-show rates with 24/7 patient self-scheduling and customized reminders/recalls.

Real-time Patient Care Support

Enhance patient care with real-time med tracking, patient reported outcomes, and ad-free educational content streaming.

Strategic Patient Engagement

Channel patient interactions & feedback to drive growth with automated surveys, review prompts, and patient-driven referral opportunities

Pioneer Excellence Through Innovation

Your Practice Branding & Content

Stand out from competition by effortlessly incorporating your practice logo, styling, and content.

Seamless Integrations

Seamlessly connect to EHR, Practice Management, and CRM platforms through our API integrations.

Rapid Deployment

Say goodbye to the hassle of managing code, performing maintenance, and hosting.

Revolutionary Accessibility

Enjoy a custom platform while avoiding the risks and expenses of internal development and management.
